Legal Services NYC - VSP Member Benefit Summary.pdf;

Good Morning,

Please review the information below with important information with how to navigate your vision coverage. I have also attached the VSP member summary for your convenience. Please let us know if you have any questions.

## Vision Care Plan

- The vision care plan offered by VSP includes coverage for eyeglasses and/or contact lenses as well as an annual eye exam. While you may visit any vision care provider you like, you can receive a higher level of benefits by visiting and in-network provider.

## Will I be receiving an id card?

- No. You identify yourself as a VSP member and provide your social security number and the doctor does the rest.

## How can I check my benefits?

- Simply go to [vsp.com](http://vsp.com), create an account and you can review your benefit information.

## How can I find in-network providers?

- You can visit [vsp.com](http://vsp.com) or call 1.800.877.7195

## If I did not enroll in the vision plan now, when can I enroll?

- The next open enrollment period for the VSP plan will be held in May 2019. The effective date of coverage will be June 1, 2019.

Best,  
Crystal
